# Corsair® Builder Series™ CX500 500W Power Supply

| | |
|---|---|
| **SKU Live Date** | **September 29, 2010** |
| **Intro Phrase / Tagline** | **Best-in-class mainstream solution for value-conscious system builders and upgraders.** |
| **Product Full Name/Title** | **Corsair Builder Series CX500 500 Watt Power Supply** |
| **25-Word Product Description** | The Builder Series is designed for installations where continuous and reliable power delivery and low noise are essential, but without multi-GUP or other high-component-count builds which may drive high temperatures. |
| **50-Word Product Description** | **Ideal for Home and Office Use**<br>The Corsair Builder Series of PSUs are designed for worry-free compatibility for your home desktop PC system build or upgrade. With features usually reserved for premium power supplies, it's a great choice for systems where continuous and reliable power delivery and low noise are essential. |
| **100-Word Product Description** | **Ideal for Home and Office Use**<br>The Corsair Builder Series of PSUs are designed for worry-free compatibility for your home desktop PC system build or upgrade. With features usually reserved for premium power supplies, it's a great choice for systems where continuous and reliable power delivery and low noise are essential.<br>Inside you will find a power supply that conforms to universal ATX standards, a power cable, and a clear, detailed Quick Start Guide. Corsair Builder Series power supplies get your system up and running quickly and easily, for years of trouble-free operation. |
| **Product Features** | • It supports the latest ATX12V v2.3 standard and is backward compatible with ATX12V 2.2 and ATX12V 2.01 systems.<br>• An ultra-quiet 120mm fan delivers excellent airflow at an exceptionally low noise level by varying fan speed in response to temperature.<br>• Up to 80% energy efficiency means less heat generation and lower energy bills.<br>• 0.99 Active Power Factor Correction provides clean and reliable power.<br>• Universal AC input from 90~264V. No more hassle of flipping that tiny red switch to select the voltage input!<br>• A dedicated single +12V rail offers maximum compatibility with the latest components.<br>• Over-voltage and over-power protection, under-voltage protection, and short circuit protection provide maximum safety to your critical system components.<br>• Extra long fully-sleeved cables support full tower chassis.<br>• A two year warranty and lifetime access to Corsair's legendary technical support and customer service.<br>• Dimensions: 5.9"(W) x 3.4"(H) X 5.5"(L); 150mm(W) x 86mm(H) x 140mm(L)<br>• MTBF: 100,000 Hours |
